

BULGARIAN T-CLASS FEDERATION

T-CLASS MULTIGUN COMPETITION

22-23.10.2016

SLIVNICA, BULGARIA

MODULE 1 – MARKSMANSHIP

MODULE 1, EXERCISE #1

Distance: 102 meters

Weapon: sniper rifle

Ammo: 5 rounds

Shooting position: Prone, no limitations

Target: t-class exercises #1

Start/Stop signal: Horn

Description: The shooter is prone alongside his rifle, both hands stretched sideways with palms touching the ground and 1 meter apart. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon.

Time for execution: 2 minutes (120 seconds)

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #2

Distance: 102 meters

Weapon: sniper rifle

Ammo: 5 rounds

Shooting position: Prone, no limitations

Target: t-class exercises #2

Start/Stop signal: Horn

Description: The shooter is prone alongside his rifle, both hands stretched sideways with palms touching the ground and 1 meter apart. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon.

Time for execution: 30 seconds

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #3

Distance: 102 meters

Weapon: sniper rifle

Ammo: min. 2 rounds max. 5 rounds

Shooting position: Prone, no limitations

Target: t-class exercises #3 (four stars with different dimensions)

Start/Stop signal: Horn

Description: The shooter is standing one meter behind the rifle. The magazine is filled and fitted, the action is open. After the Start signal, the shooter assumes prone position, loads the rifle and fires towards those targets, which he would certainly hit. It is required that the shooter must repeat the hit on the last diameter target, reached by his decision. If there is a hit outside the diameter of any target, or if there is no repetition of the minimal diameter target reached, the scoring of the exercise is zeroed.

Time for execution: 90 seconds

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #4

Distance: 102 meters

Weapon: sniper rifle

Ammo: 3 rounds

Shooting position: Prone, without bipod or any other support, only the use of a backpack is allowed

Target: t-class exercises #4 (figures)

Start/Stop signal: Horn

Description: The shooter is prone and holding his rifle, but has not shouldered yet. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon. Each hit in the no-shoot area of the target is scored with penalty points equal to the highest scoring points for the entire exercise.

Time for execution: 45 seconds

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #5

Distance: 102 meters

Weapon: sniper rifle

Ammo: 3 rounds

Shooting position: Prone, elbows support, no bipod or any other support is allowed, besides the use of a rifle sling.

Target: t-class exercises #5 (four diamonds)

Start/Stop signal: Horn

Description: The shooter is prone and holding his rifle, but has not shouldered yet. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon.

Time for execution: 80 seconds

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #6

Distance: 102 meters

Weapon: sniper rifle

Ammo: 3 rounds

Shooting position: Prone, no limitations

Target: t-class exercises #6 (numerical triangles)

Start/Stop signal: Horn

Description: The shooter is standing one meter behind the rifle. The magazine is filled and fitted, the action is open. Before the Start signal, the range officer declares the number of the target to be shot. After the Start signal, the shooter assumes prone position, loads the rifle and fires towards the numbered target. The range officer performs the weapon's check and then the shooter assumes the standing position for the next round.

Time for execution: 30 seconds for each shot

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #7

Distance: 102 meters

Weapon: sniper rifle

Ammo: 4 rounds

Shooting position: Prone, no limitations

Target: brass cases on a stick (4 pcs)

Start/Stop signal: Horn

Description: The shooter is prone alongside his rifle, both hands stretched sideways with palms touching the ground and 1 meter apart. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon. A shot placed after the Stop signal zeroes the score.

Time for execution: 60 seconds
Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #8

Distance: around 300 meters

Weapon: sniper rifle

Ammo: 2 rounds

Shooting position: Prone, no limitations.

Target: orange clay pigeon – 2 pcs

Start/Stop signal: Horn

Description: The shooter is prone alongside his rifle, both hands stretched sideways with palms touching the ground and 1 meter apart. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon. A shot placed after the Stop signal zeroes the score.

Time for execution: 60 seconds

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #9

Distance: 70 meters

Weapon: sniper rifle

Ammo: 4 rounds

Shooting position: sitting (without bipod support)

Target: t-class exercises #7 (enemy who is pointing a gun)

Start/Stop signal: Horn

Description: The shooter assumes sitting position, the use of a sling or a pillow bag is allowed. Two shots are placed at each scoring zone. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon. A shot placed after the Stop signal zeroes the score.

Time for execution: 80 seconds

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #10

Distance: 50 meters

Weapon: sniper rifle

Ammo: 3 rounds

Shooting position: kneeling

Target: t-class exercises #8 (ovals)

Start/Stop signal: Horn

Description: The shooter assumes kneeling position, the use of a sling or a pillow bag is allowed. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon. A shot placed after the Stop signal zeroes the score.

Time for execution: 60 seconds

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #11

Distance: 50 meters

Weapon: sniper rifle

Ammo: 3 rounds

Shooting position: standing

Target: t-class exercises #9

Start/Stop signal: Horn

Description: The shooter assumes standing position, the use of a sling or a pillow bag is allowed. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon. A shot placed after the Stop signal zeroes the score.

Time for execution: 60 seconds

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #12

Distance: 50 meters

Weapon: assault rifle

Ammo: 12 rounds

Shooting position: standing, kneeling, sitting, prone

Target: t-class A4

Start/Stop signal: Horn

Description: The shooter is standing, after the Start signal he loads his rifle and fires 3 rounds, then puts the safety catch on and waits for the range officer to verify his weapon. Then, the shooter assumes kneeling position, after the Start signal fires another 3 rounds, puts the safety catch on and waits for the check by the Range officers. Afterwards, the shooter assumes sitting position, after the Start signal fires another 3 rounds and waits for the final shooting position, which is prone. After the final 3 rounds from prone position, the shooter extracts the magazine and shows that the weapon is cleared.

Time for execution: 30 seconds for each shooting position

Scoring: According to the T-Class Set of Rules

MODULE 1, EXERCISE #13

Distance: 25 meters

Weapon: semi-auto pistol

Ammo: 15 rounds

Shooting position: standing

Target: t-class A4

Start/Stop signal: Horn

Description: The shooter is standing facing the target. The pistol is held with two hands besides the body, with the barrel facing the target. The magazine is fitted; there is no round in the chamber. After the Start signal, the pistol is loaded and the target is shot with 5 rounds both handed, 5 rounds left handed, 5 rounds right handed.

Time for execution: 30 seconds

Scoring: According to the T-Class Set of Rules

MODULE 2 - DYNAMIC

MODULE 2, EXERCISE #1

Distance: sniper rifle – around 290, 340, 360 meters, pistol – from 12 to 25 meters

Weapon: sniper rifle, semi-auto pistol

Ammo: sniper rifle – min 3 rounds, pistol – min 3 rounds.

Shooting position: shooting barricades

Target: metal plates (340, 360 m), clay pigeon – 300 m, metal plates (12-25 m)

Start/Stop signal: shooting timer

Description: The shooter is standing holding his rifle a meter apart from the barricade. The magazine of the rifle is fitted, the action is open. The magazine of the pistol is fitted, the chamber is clear. After the Start signal, the shooter fires towards the distant metal plates from the top open port of the barricade, afterwards from the lower port, and then assumes prone position and fires towards the clay pigeon. Then, the shooter leaves his rifle and moves towards the other barricade, where he picks up his pistol and fires towards the near plates. No time limitation. Scoring is made with a hit factor. Scoring points are divided to the executed time.

Time for execution: hit factor

Scoring: According to the T-Class Set of Rules

MODULE 2, EXERCISE #2

Distance: around 340 and 360 meters

Weapon: sniper rifle

Ammo: min 4 rounds

Shooting position: wood barricade

Target: metal plates

Start/Stop signal: shooting timer

Description: The shooter is standing holding his rifle a meter apart from the barricade. The magazine of the rifle is fitted, the action is open. After the Start signal, the shooter assumes position behind the wood barricade, shoots the two metal plates. Then, the shooter moves towards the other barricade, assumes position and shoots the two plates again. No time limitation. Scoring is made with a hit factor. Scoring points are divided to the executed time.

Time for execution: hit factor

Scoring: According to the T-Class Set of Rules

MODULE 2, EXERCISE #3

Distance: around 340, 360 and 500 meters

Weapon: sniper rifle

Ammo: min 4 rounds

Shooting position: prone and from a barricade

Target: metal plates

Start/Stop signal: shooting timer

Description: The shooter is standing holding his rifle a meter apart from the barricade. The magazine of the rifle is fitted, the action is open. After the Start signal, the shooter assumes prone position and fires towards the 500 m plates (body and head). Then, the shooter moves towards the barricade, assumes position and shoots the 340m and 360m plates. No time limitation. Scoring is made with a hit factor. Scoring points are divided to the executed time.

Time for execution: hit factor

Scoring: According to the T-Class Set of Rules

MODULE 2, EXERCISE #4

Distance: sniper rifle – around 340 and 360 meters, Assault rifle – around 80 meters, pistol – 16 meters

Weapon: sniper rifle, assault rifle, semi-auto pistol

Ammo: sniper rifle – min 2 rounds, assault rifle – min 3 rounds, pistol – min 4 rounds.

Shooting position: from a locker and shooting barricades

Target: metal plates

Start/Stop signal: shooting timer

Description: The shooter is standing holding his rifle a meter apart from the locker. The magazine of the rifle is fitted, the action is open. After the Start signal, the shooter assumes position from the locker and fires with his sniper rifle towards the 340m and 360m plates. Then, he moves towards the bigger shooting barricade, picks up his assault rifle and fires towards the 80m plate from three different opening ports of the barricade. Afterwards, he moves towards the other barricade, picks up his pistol and fires towards the near metal plates. No time limitation. Scoring is made with a hit factor. Scoring points are divided to the executed time.

Time for execution: hit factor

Scoring: According to the T-Class Set of Rules

MODULE 2, EXERCISE #5

Distance: sniper rifle – around 340, 360 and 500 meters, pistol – 15 meters

Weapon: sniper rifle, semi-auto pistol

Ammo: sniper rifle – min 4 rounds, pistol – min 4 rounds.

Shooting position: prone, from a barrel and standing

Target: 4 distant metal plates and 4 near metal plates (16 cm)

Start/Stop signal: shooting timer

Description: The shooter is standing 1 meter behind his rifle and holding his rifle magazine. After the Start signal, the shooter assumes prone position, loads his rifle and fires towards the 500m plates (body and head). Then, he moves with his sniper rifle towards the barrel, assumes position and shoots towards the 340m and 360m plates. Afterwards, he picks up his pistol, loads and fires towards the near metal plates. No time limitation. Scoring is made with a hit factor. Scoring points are divided to the executed time.

Time for execution: hit factor

Scoring: According to the T-Class Set of Rules

MODULE 2, EXERCISE #6

Distance: around 300, 340, 360 meters

Weapon: sniper rifle

Ammo: min 3 rounds

Shooting position: prone and from a barricade

Target: 340m and 360m metal plates; 300m clay pigeon

Start/Stop signal: shooting timer

Description: The shooter is standing 1 meter behind his rifle and holding his rifle magazine. After the Start signal, the shooter assumes prone position, loads his rifle and fires towards the 300m clay pigeon. Then, he moves to another position behind the shooting barricade and shoots the 340m and 360m plates. No time limitation. Scoring is made with a hit factor. Scoring points are divided to the executed time.

Time for execution: hit factor

Scoring: According to the T-Class Set of Rules

MODULE 3 – LONG RANGE

MODULE 3, EXERCISE #1

Distance: around 900 meters

Weapon: sniper rifle

Ammo: 5 rounds

Shooting position: Prone, no limitations

Target: metal plate (50/80 cm)

Start/Stop signal: Horn

Description: The shooter is prone alongside his rifle, both hands stretched sideways with palms touching the ground and 1 meter apart. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon. A shot placed after the Stop signal zeroes the score. Each subsequent hit after the first shot is scored with 80%, 60%, 40% and 20% from the maximum points for the first hit.

Time for execution: 150 seconds

Scoring: According to the T-Class Set of Rules

MODULE 3, EXERCISE #2

Distance: around 600, 700, 800, 900 meters

Weapon: sniper rifle

Ammo: 4 rounds

Shooting position: Prone, no limitations

Target: 4 metal plates (21/40, 25/40, 50/70, 50/80 cm)

Start/Stop signal: Horn

Description: The shooter is prone alongside his rifle, both hands stretched sideways with palms touching the ground and 1 meter apart. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon. A shot placed after the Stop signal zeroes the score.

Time for execution: 150 seconds

Scoring: According to the T-Class Set of Rules

MODULE 3, EXERCISE #3

Distance: around 600, 700, 800, 900 meters

Weapon: sniper rifle

Ammo: min. 4 rounds, max. 8 rounds.

Shooting position: Prone, no limitations

Target: 4 metal plates (21/40, 25/40, 50/70, 50/80 cm)

Start/Stop signal: Horn

Description: The shooter is prone alongside his rifle, both hands stretched sideways with palms touching the ground and 1 meter apart. The magazine is filled and fitted, the action is open. After the Start signal, the rifle is loaded and the targets are fired upon. If the target is missed with the first shot, a second shot at the same target is allowed. A shot placed after the Stop signal zeroes the score.

Time for execution: 150 seconds

Scoring: According to the T-Class Set of Rules

MODULE 3, EXERCISE #4

Distance: around 550, 650, 750, 850 meters

Weapon: sniper rifle

Ammo: min. 4 rounds, max. 8 rounds.

Shooting position: Prone, no limitations (from an elevated position)

Target: 4 metal plates (21/40, 25/40, 50/70, 50/80 cm)

Start/Stop signal: Start signal - Body touch by the Range officer. Stop signal - Horn

Description: The shooter is prone alongside his rifle, both hands stretched sideways with palms touching the ground and 1 meter apart. The magazine is filled and fitted, the action is open. The Range officer announced the target to be shot. Each shooter is ready. The Range officer randomly touches one of the shooters. After the Start signal, the rifle is loaded and the target is fired upon. If the target is missed with the first shot, a second shot at the same target is allowed. All of the targets are shot in this pattern. A shot placed after the Stop signal zeroes the score.

Time for execution: 30 seconds for each target

Scoring: According to the T-Class Set of Rules

MODULE 3, EXERCISE #5

Distance: around 850 meters

Weapon: sniper rifle

Ammo: min. 1 round, max. 2 rounds

Shooting position: Prone, no limitations (from an elevated position)

Target: metal plate (50/80 cm)

Start/Stop signal: Start signal – verbal announcement of the shooter's number. Stop signal - Horn

Description: The shooter starts 50 meters apart from the final shooting position. His rifle is placed on an elevated platform on the 3rd floor. The magazine is filled and fitted, the action is open. The Range officer verbally announces a random shooter's number, which is the Start signal. After the Start signal, the shooter moves towards the final shooting position, climbs the stairs to the elevated platform, assumes prone position, loads his rifle and fires towards the target. If the target is missed with the first shot, a second shot at the same target is allowed. A shot placed after the Stop signal zeroes the score.

Time for execution: 40 seconds

Scoring: According to the T-Class Set of Rules

MODULE 3, EXERCISE #6

Distance: around 700 and 850 meters

Weapon: sniper rifle

Ammo: min. 2 rounds, max. 4 rounds

Shooting position: Prone, no limitations, from two shooting positions

Target: 2 metal plates (25/40, and 50/80 cm)

Start/Stop signal: Horn

Description: The shooter is standing 1 meter behind his rifle. The magazine is filled and fitted, the action is open. After the Start signal, the shooter assumes prone position, the rifle is loaded and the first target is fired upon. If the target is missed with the first shot, a second shot at the same target is allowed. Afterwards, the shooter moves to the second shooting position onto an elevated platform, assumes prone position again and fires towards the second target. If the target is missed with the first shot, a second shot at the same target is allowed. A shot placed after the Stop signal zeroes the score.

Time for execution: 90 seconds

Scoring: According to the T-Class Set of Rules
